## CUSTOMER CONNECTION

March Customer Spotlight:

### **TUBZ PLUS<sup>LLC</sup>**

Where The + Means Service!

Tubz Plus is a family owned local business with over 25 years of experience that specializes in bathroom remodeling, upgrades and safety enhancements. Their services include bathtub refinishing, counter top refinishing, ceramic tile refinishing, antique tub restoration, bathtub chip repair, and bathtub structural cracks.

Why do you choose CNS Advertising?

"We choose CNS as our advertising provider because they make it so easy to get our message out to the surrounding South Georgia communities. The entire staff is friendly and personable, and they work hard to make sure we get great exposure. Working with the staff at CNS is like working with family - we all know each other by first name. It's a really great experience!"

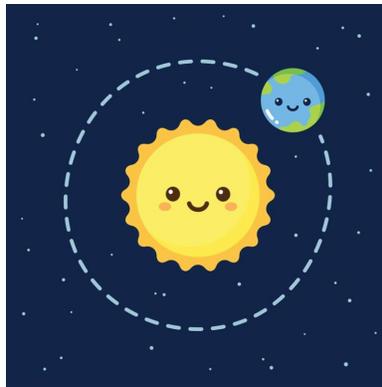

Thank you, Tubz Plus! We love our customers!

## We want to spotlight YOU!

We'd LOVE to feature YOU in our *Customer Spotlight*! Featured once a month, the *Customer Spotlight* is a great way to get the word out about your business. Email Brandy at [brandy.bradley@cns-internet.com](mailto:brandy.bradley@cns-internet.com) for more information on how you can be featured!

## It's that time again.. Solar Interference

Have you been experiencing a loss in picture quality during your favorite programming in the afternoons?

This is due to **solar interference**, also known as *sun spots*, affecting our satellite operations. In the spring and fall, the orbital positions of the satellite and the sun are on one line. This can cause the sun to override our programming, causing signal loss or degradation of picture quality. We are experiencing *sun spots* now and may continue to experience these brief picture quality issues over the next couple of weeks from about 2:30 to 5:30 each afternoon. These types of issues should only last a few minutes. Although they may be a nuisance, please be aware that it's just the sun doing it's thing!

## Upcoming Premieres

These hot new premieres are the perfect opportunity for you to reach an engaged customer base. We can air your commercial on any of these popular shows. Call us today to update your advertising schedule.

## Did you know?

Your odds of filling out a perfect March Madness bracket are not good. In fact, they are lower than your odds of winning the lottery, getting struck by lightning, and having a boa constrictor emerge through the pipes in your home—all on the same day. **But you have a 100% chance of**

**engaged customers seeing your commercial during March Madness!** We still have a few packages available. Don't miss out on being seen during the most popular NCAA games. Contact Brandy at 229.227.4090 or [brandy.bradley@cns-internet.com](mailto:brandy.bradley@cns-internet.com).

## Don't Get Caught By Surprise!

**Phishing** is the practice of sending emails impersonating reputable companies in order to convince you to reveal personal information

such as credit card information, login information, and more.

*Phishing emails can look very real and can have equally real consequences to your system.*

*CNS will never ask for your personal information through email.*

Here are some helpful tips to avoid becoming a victim of Phishing:

- Be suspicious of any email or communication (including text messages, social media post, and ads) with urgent requests for financial information. Do not give any personal or company confidential information via email. Most companies will have policies in place and will never ask confidential information via email.
- Avoid clicking on any links. Instead, go to the website directly using your browser or search engine.
- Check for spelling mistakes. Brands are serious about email. A legitimate message usually does not have major spelling mistake or poor grammar.
- Do not trust the header from the email address. Fraudsters will not only spoof brands in the display name, but will also spoof brands in the header from email addresses, including the domain name.
- Keeping your browser software up-to-date can also help protect your system. Security patches are released for popular browsers frequently. These updates are released in response to security loopholes that phishers inevitably discover and exploit.
- Make certain to use antivirus software and be sure that the software is active and up to date.

If you have concerns about any email, be sure to call a CNS Technical Support Representative and they can assist you in determining if your email is from a legitimate source.
